Household waste and trash may be collected by
one truck and yard waste by another on the
same day.

BOSSIER CITY SOLID WASTE SERVICE

QUESTIONS AND ANSWERS

Bossier City is serviced by a semi-automated collection system, which requires 96 gallons carts-on-wheels. The city delivers the cart to your home at the time your utility service is connected. It is city property and if you move, the cart must remain at the house for the next occupant.

Q. How and what will I be billed?

A. Monthly Fees on Monthly Water Bill	
Church	\$24.00
Curbside	\$24.00
Backyard	\$28.00
Backyard HC	\$24.00
Commercial	\$28.00

Extra carts up to a total of 4 - \$4.00/ea.

Fees include \$8.00 for public services.

Commercial & Church customers will require approval from the contractor for more than 4 carts. **All solid waste at these locations must be contained within the carts.**

Q. What is my collection day?

A. Find your neighborhood on the map on the opposite side of this brochure to learn you collection day. If you can not determine your collection day on the map, call Bossier City Solid Waste at 741-8461 or visit www.bossiercity.org Public Works (Solid Waste). Household waste, trash and yard waste will be collected on the same day.

Q. How should I prepare my garbage and trash for collection?

A. All garbage and trash must be containerized in tightly-tied plastic bags before it is placed in the city- issued cart. Cardboard boxes should be flattened and placed beside or inside your cart.

Q. Where and when should I place my cart for collection service?

A. Roll your cart to the curb between the sidewalk and street by 6:30 am. After collection, remove your cart from the curb to store away from public view. This will help maintain cleaner, safer, and more attractive neighborhoods. Container should be placed within 4 feet of the curb or edge of street. **The handle should be pointed away from the street with the opening toward the street.**

City Ordinance mandates that carts may be placed at curbside only from 9:00 am the day prior to day of pickup thru 9:00 am the day after pick up.

Q. How should I prepare yard waste?

A. Grass, leaves, clippings, pine straw, and all small yard waste matter should be containerized in plastic trash bags (not to exceed 10 bags) and placed near your cart. Limbs should be cut not to exceed six feet in length, eight inches in diameter, 65 lbs. for one item and should be stacked neatly on the curb. The maximum amount of 6' limbs is a stack 15' long x 4' high.

Q. How should I dispose of large items, other than yard waste?

A. Call the Bossier City Solid Waste Office at 741-8461. All solid waste will be collected on your regular pick-up day. Call for special pickup of furniture, appliances, and tires. (residential only) **NO CHARGE**

RECYCLING

24 HR. DROP-OFF CENTER
3301 OLD SHED ROAD
741-8461
