There will be a \$15.00 return trip charge for a late set-out location.

A Guide for Bossier City's
Solid Waste Service

EFFECTIVE JANUARY 2, 2019

BOSSIER CITY SOLID WASTE SERVICE

SOLID WASTE SERVICES 741-8461

Bossier City Solid Waste Services are contracted through Live Oak Environmental and utilize 96-gallon roll-out carts. The City delivers a single cart to residences when utility service is connected. When a resident moves, the cart—which is city property—must remain at the residence for the next occupant.

QUESTIONS & ANSWERS

Q. How and what amount will I be billed?

A. Monthly fees and any extra charges are assessed on residents' Monthly Water Bill.

No Change In Fees Due to New Contractor

Church	\$24.00
Curbside	\$24.00
Backyard	\$28.00
Backyard HC	\$24.00
Commercial	\$28.00

Extra carts (maximum of 4) - \$4.25/ea.

Commercial & Church customers require approval from the contractor for more than 4 carts.

All solid waste at these locations must be contained within the carts. Additional charges will apply to waste outside the cart. \$25.00 per cubic yard

Q. What is my collection day?

A. Find your neighborhood on the map on the opposite side of this brochure to learn your collection day. If you can not determine your collection day on the map, call Bossier City Solid Waste at 741-8461 or visit www.bossiercity.org Public Works (Solid Waste). Household waste, trash and yard waste will be collected on the same day.

Q. How should I prepare my garbage and trash for collection?

A. All garbage and trash must be containerized in tightly-tied plastic bags before it is placed in the city-issued cart. Cardboard boxes should be flattened and placed beside or inside your cart.

Q. Where and when should I place my cart for collection service?

A. Roll your cart to the curb between the sidewalk and street by 6:30 am. After collection, remove your cart from the curb to store away from public view. This will help maintain cleaner, safer, and more attractive neighborhoods. Container should be placed within 4 feet of the curb or edge of street. **The handle should be pointed toward the street.**

City Ordinance mandates that carts may be placed at curbside only from 9:00 am the day prior to day of pickup thru 9:00 am the day after pick up.

Residential customers may set out (2) 35-40 gallon plastic containers for sticks, twigs, trimmings and small amounts of grass or leaves.

Q. How should I prepare yard waste?

A. Grass, leaves, clippings, pine straw, and all small yard waste matter should be containerized in plastic trash bags (**not to exceed 10 bags**) and placed near your cart. Limbs should be cut not to exceed 6 feet in length, 8 inches in diameter, 65 lbs. for one item and should be stacked neatly on the curb. The maximum amount of 6 foot limbs is a stack 15 feet long x 4 feet high.

Q. How should I dispose of large items, other than yard waste?

A. All solid waste will be collected on your regular pick-up day. Residents must call for special pickup of a single piece of furniture, a washer/dryer set, a mattress/box spring set, an individual appliance or up to 4 tires. **There will be a charge for combining or exceeding these limits - \$25.00 per item.**
